

Perfect Search Media

Complete rebuild of the company website on a Drupal based enterprise CMS. The goal was to create an easy to update website based on fresh designs. This is a fast growing company and updating the site's content was important. They also needed the site to be fast loading, and mobile and tablet friendly.

Mobile-friendly, responsive design that adapts to all devices. Complicated home page loads in under 1 second from speed tests.

Dynamic slideshow with images, text, and animation. Forever scroll testimonial page. HTML5 animation on the about us page.

Blog developed to increase SEO and web traffiic
